

Swagat Nepal

AI/ML Engineer

Address	Thimi, Nepal , Bhaktapur
Contact Number	9849243997
Email	ceswagat356@gmail.com
GitHub	github.com/swagat017
LinkedIn	linkedin.com/in/swagat-nepal-3651343a7/

SUMMARY

I am Swagat Nepal, a final-year Computer Engineering student at IOE, Thapathali Campus, with a strong passion for Machine Learning and Artificial Intelligence. Built multiple end-to-end ML projects using Python, PyTorch and Scikit-learn through self-directed learning. Eager to apply these skills and continue exploring as AI/ML engineer.

EDUCATION

Banepa NIST (Banepa)

+2 Science

Jun, 2020 - Jun, 2022

IOE, Thapathali Campus (Kathmandu)

Bachelors in Engineering

Apr, 2023 - Present

PROJECTS

CNN for CIFAR10

Built a Convolutional Neural Network (CNN) in PyTorch for image classification on the CIFAR-10 dataset, achieving 74.87% test accuracy across 10 object classes.

<https://github.com/swagat017/CNN-for-CIFAR10.git>

Creditwise Loan Approval System

Built a loan approval prediction pipeline in Python, comparing Logistic Regression, kNN, and Naive Bayes classifiers; improved accuracy from 86.5% to 88% through feature engineering

<https://github.com/swagat017/CreditWise-Loan-Approval-System.git>

SmartCart Clustering

Performed customer segmentation on retail purchase data using K-Means and Agglomerative Clustering, applying PCA for dimensionality reduction and identifying 4 distinct customer segments based on spending and purchasing behavior.

<https://github.com/swagat017/SmartCart-Clustering.git>

ANN for Regression and Classification

Built and evaluated feedforward ANNs for both regression and classification tasks: predicted power plant energy output (R^2 0.93), benchmarked against Linear Regression, Decision Tree, and Random

Forest; and classified 7 date fruit varieties from morphological features (91.7% accuracy). Covered full pipeline :- preprocessing, feature scaling, model design, training with Adam/backpropagation, and performance evaluation.

Training/Certifications

ApnaCollege: PRIME AI/ML

AI/ML course

2026

I began my programming journey from my college syllabus at first, which sparked my interest in the field. I developed my skills learning from online courses, youtube videos and various tutorials. Over time, through continuous learning, I have grown into a confident Machine Learning Engineer trying to solve real-world problems.

Skills

Python, Communication, Data Preprocessing & Visualization (Pandas, Numpy, Seaborn, Scikit-learn, Matplotlib, PyTorch), C/C++ programming

Language

Nepali, English, Hindi
